The full title, which may be quite, quite long indeed

The (optional) subtitle

Author Names

Month and day, year

Workshop Name
Computer Science Department
IME USP

Overview

1. **Introduction**
2. **Concepts**
3. **Related Works**
4. **Methodology**
5. **Results**
   Validation and Analysis
6. **Conclusion and Future works**
7. **References**

Overview

1. **Introduction**
2. Concepts
3. Related Works
4. Methodology
5. Results
   - Validation and Analysis
6. Conclusion and Future works
7. References

Context

- **The copyright compromise seeked to balance public and private interests**
- **Nowadays, changes to the law and technological advances all but destroyed this balance**

- **As a reaction, the free software movement was created**
  - Return to sharing (of source code) and to collaboration (exchange of ideas and team work)
  - Formalization with the GNU project
  - Only really possible when there are favourable conditions for source code exchange
    - » *as highlighted by the growth that accompanied the Internet boom*

The CCSL logo

This is a problem!

Overview

1. Introduction
2. Concepts
3. Related Works
4. Methodology
5. Results
   - Validation and Analysis
6. Conclusion and Future works
7. References

Concepts

Wikipedia is not a good source for academic research,
but it is nonetheless useful. The entry on Pangrams states:

What are Pangrams?

- **A pangram is a sentence using every letter of a given alphabet at least once.**
- **Pangrams have been used to display typefaces, test equipment, and develop skills in handwriting, calligraphy, and keyboarding.**

(https://en.wikipedia.org/wiki/Pangram)

Pangram – examples

Some pangrams in English

- A quick brown fox jumps over the lazy dog
- Sphinx of black quartz, judge my vow
- How vexingly quick daft zebras jump
- Pack my box with five dozen liquor jugs

Some pangrams in Portuguese

- Vejo xá gritando que fez show sem playback
- Vi que ex-janota gordo fez show com playback
- Já fiz vinho com toque de kiwi para belga sexy
- Vejo galã sexy pôr quinze kiwis à força em baú achatado

Theorems and proofs

Theorems and proofs

Extra info

- It is often useful to have some extra slides addressing likely questions from the audience at the end of the presentation
- By putting them after the “appendix” command, they are not counted in the page count indicator
